A STRONGER BRAND IMAGE

- **Personalize your tags** by adding your own logo and choice of graphics. This will enable you to promote your brand image and reinforce your company's visual identity.
- **Showcase your buffet offer and set yourself apart:** highlight new or local products, dishes prepared on site, and any other information you wish to include.

MAXIMUM FLEXIBILITY

- **Be totally independent** by quickly and easily creating your presentation tags at your own location.
- **Be highly responsive:** in just a few minutes, you can personalize and print tags to highlight any new products in your buffet, and adapt information to suit your customers.

CLEAR AND COMPREHENSIVE INFORMATION

- **Enhance your service quality for international customers** by displaying information in several languages on your tags.
- **Meet your customers' expectations and comply with regulatory requirements** by displaying full information regarding the ingredients and origin of products on your tags.
- **Help customers make a fast and informed choice** by including all information on a single card. This will allow for a smoother flow at buffet counters and enhance your customers' experience.

THE IDEAL MEDIUM

- **The plastic card comes in various formats** for ease of readability. The different folding options increase your buffet layout possibilities by ensuring that labels are always adapted to the size of your products.
